Eco-Synagogue Tip of the Week

Google released a new feature in Google Maps this year where you can now choose the "eco-friendly" route in settings (based on fuel usage from traffic, hills and altitude).

HaMagen Magazine

We would like to remind members that we are in the advanced stages of preparing the Pesach edition of the community magazine HaMagen, but we welcome more submissions - preferably related Pesach and to Israel and our connection with its people and history over 75 years. We will be able to receive articles and reminiscences up to the end of February. We also eagerly await those who have kindly promised contributions. Finally, we do aim to make the magazine self-sustaining. This is best achieved by members supporting production costs by advertising and we will offer very attractive advertising rates for corporate and private sponsors shortly.
